Vol. 9 No. 21, Nov. 26-Dec. 9, 1983

TODAY & TOMORROW

NOV. 26-DEC. 9, 1983

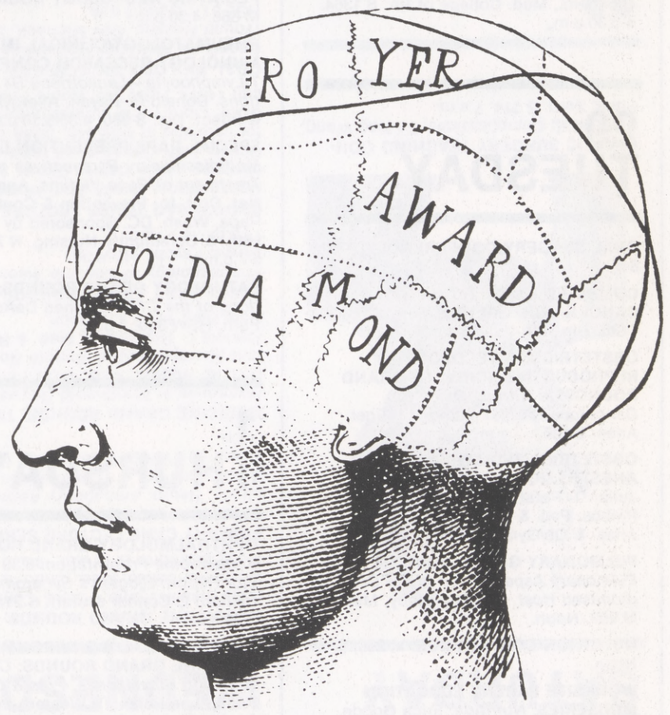
Ivan F. Diamond, MD, PhD, received the 20th Annual J. Elliot Royer Award during ceremonies at the annual meeting of the Alameda-Contra Costa Medical Association in Oakland on November 15.

The $15,000 prize is presented each year by the UC Regents to honor the memory of Royer, an Oakland physician who died in 1961 and left an endowment to be given to the San Francisco or East Bay physician who has made "the most significant contribution to the advancement of psychiatry or neurology in the past year." The committee includes UCSF representatives and the presidents of the SF Medical Society and Alameda-Contra Costa Medical Association.

Diamond was selected for his outstanding contributions as an investigator, clinician, teacher and role model for young neurologists and neuroscientists. A UCSF professor of neurology, pediatrics and pharmacology, he is director of the recently established Ernest Gallo Clinic and Research Center at SFGH.

Diamond came to UCSF in 1969. He has played a leading role in many areas of basic research. As director of the Gallo Center, he is studying how alcohol abuse produces neurological disorders and how to prevent these complications.

In addition to his research and administrative responsibilities, Diamond takes an active role in the clinical care of patients with neurological diseases and teaches in several departments.



The campus increased its United Way participation this year by 200 percent, in a campaign which saw 29.9 percent of staff and faculty making contributions. With returns still coming in, the campus already has donated in excess of $100,000—a 40 percent jump over last year's United Way donations with three times the number of employees contributing, according to Chancellor Krevans. Last year's campus participation was 9 percent.

"I am absolutely delighted at this increased participation, said Krevans. "It shows UCSF's concern for those in the community in need of our help."

The Chancellor will personally thank some 500 employees, who volunteered as United Way donor representatives, at a celebration in Millberry Union; the date is to be announced.

DEVELOPMENT & TRAINING PROGRAMS

NEWS BRIEFS

Six employees will receive the Chancellor's Award for Exceptional University Service at a ceremony and reception on Wednesday, November 30, at 3 p.m. in the Millberry Union lounges. They are: Leslie Bible, Department of Medicine/Cardiology; Julian Davis, Materiel Management/Central Receiving; Maria Mangaoil, Nutrition and Dietetics; Mary M. McLaughlin, Medical Records; Anne Politeo, Nursing Services; and Irene Smith, Patient Escort Service.

The Chancellor's Award for Exceptional University Service is given annually to employees who have been at the top of their salary range for five years or more and have demonstrated outstanding service to the University. Each awardee is given a certificate, a UC medallion and a check for $1,500.

The entire campus is invited to attend the ceremonies.

Family members of persons with Alzheimer's Disease are invited to a meeting of a new support group on Monday, December 5, at 7 p.m. at the Holiday Inn, Van Ness and Pine, SF. The guest speaker will be Stanley Prusiner, UCSF associate professor of neurology, who will discuss current research on Alzheimer's Disease.

The meeting is sponsored by Ida Martinson, RN, PhD, professor and chair, Department of Family Health Care Nursing, School of Nursing, and the national Alzheimer's Disease and Related Disorders Association (ADRDA). San Francisco is the last major US city to begin an ADRDA chapter or support group, according to Martinson, who serves on the association's medical and scientific advisory board. The group meets regularly on the first Monday of each month. The December meeting is the group's second.

Alzheimer's Disease is a little-known disorder of the brain causing loss of memory and serious mental deterioration. It is estimated that over 1.5 million middle-aged and older Americans, or 2-3 percent of the general population over age 60, have the disease.

For further information on the new support group, call the Department of Family Health Care Nursing at x4668 or Elayne Brill of the ADRDA at 494-6110.

A memorable event for many during the holiday season is seeing a performance of "The Nutcracker." Tandy Beal & Company, a Santa Cruz-based dance and theater ensemble, will present a contemporary dance version of this classic on Sunday, December 11, at 2:30 and 7:30 p.m. at the Palace of Fine Arts, Bay and Lyon Streets, SF. The performances are sponsored by UCSF Committee for Arts and Lectures.

Dancers, jugglers, gymnasts, roller skaters and even a collection of punk rock mice will perform in this non-traditional version, incorporating flamenco, waltz, contemporary and Arabian dance.

The Sugar Plum Fairy will appear in person, at a special reception to benefit the UCSF Child Care Study Center following the matinee. Tickets at $8.50, good for a $7 seat and the reception, may be purchased by calling x1616 or visiting the center at 610 Parnassus Avenue.

Other tickets are available from Millberry Union Central Desk or all BASS outlets at $5, $7 and $9 for the 2:30 matinee, and $7, $9 and $11 for the evening performance.

A new disposition of accumulation form, number U1635, is now available from Storehouse. The form, which is used to request retirement refunds, was revised extensively in July of this year. Previous U1635 forms should be discarded.

If you are an arthritis sufferer, help can be as close as your telephone. The Arthritis Information Network at 931-0463 has a public health nurse on duty who can provide free information on support systems, employment counseling, aids to daily living, self-help classes and other information on the disease. The network is part of the Rosalind Russell Medical Research Center for Arthritis at SFGH.

A panel discussion on "Reproductive Effects of DES Exposure on DES Daughters and Sons" will be held on Thursday, December 15, from 7:30 to 9 p.m. in Toland Hall.

Panelists will include Robert K. Creasy, UCSF professor, ob/gyn; R. Dale McClure, UCSF assistant professor, urology; Risa Kagan, UCSF assistant professor, ob/gyn; and internist Judy Kemeny from Kaiser Hospital, Redwood City.

DES (diethylstilbestrol) is an artificial estrogen that was prescribed from 1941 to 1971 to millions of pregnant women to prevent miscarriage. Daughters and sons of these women are now experiencing a variety of reproductive problems resulting from their DES exposure.

This free program is sponsored by the UCSF Office of Public Service Programs and the DES Action Committee of the Coalition for the Medical Rights of Women. For further information call x3206.

William L. Holzemer, PhD, of the School of Nursing, has been awarded a two-year research grant of more than $161,000 by the Division of Nursing, Public Health Service, Department of Health and Human Services.

The grant allows Holzemer, associate professor, Department of Physiological Nursing, to study some 30 nursing doctoral programs in major universities across the country and develop quality indicators for them. Barbara Carter, doctoral student in Mental Health and Community Nursing, is research assistant for the project.

UCSF has received a total of $500,000 from the state to establish an AIDS Clinical Center on campus. UCSF and SFGH researchers and clinicians will develop a tissue bank at the new center to collect and store specimens from AIDS patients, and will develop new methods of treatment to correct underlying immune deficiencies.

Principal investigator for the center is Marcus A. Conant, MD, associate clinical professor, dermatology and codirector of the Kaposi's Sarcoma Clinic at UCSF.

An additional $642,000 in state funds has been given to 10 other UCSF researchers to study AIDS. They are: Drs. Donald I. Abrams, Jay H. Beckstead, Jay A. Levy, Luan Eng Lie-Ingo, Andrew R. Moss, Daniel P. Stites, John D. Stobo, Susan D. Wall, Diane W. Wara, and W. Lawrence Drew of Mount Zion Hospital and Medical Center.

UCSF faculty are invited to submit applications for both instructional projects and Affirmative Action Faculty Development Awards to the office of the Academic Vice Chancellor, Room S 115. Deadline is December 31.

- Faculty and students may use instructional improvement program funds to update existing courses and curricula, develop new programs, introduce experimental approaches to instruction and improve teaching evaluation activities. The program will fund a small number of oustanding proposals that fall approximately between $4,000 and $6,000.
- The Affirmative Action Faculty Development Awards are given to women and minority junior faculty holding tenure track positions or in-residence titles at junior levels, and all other faculty at junior level.

Eligible faculty should submit applications through their chairperson and associate dean with a one- or two-page proposal statement including budget page, a curriculum vitae listing any projects and current sources of funding, and supporting letters from the chairperson and associate dean. In addition, the application should state receipt of previous affirmative action awards.

For further information on both programs call x1881.
